Terms and conditions

General agreement

The project leader assures that he will use the funds offered by the TYPO3 Association only for the purpose of the proposed project. All expenses must be documented and readily accessible to the business control committee at all times. Every person is allowed to file an application through this form and in due time.

Project Management

Milestones are defined by a) a deadline, b) a featureset / a target (must be measurable) and c) the costs.

You need to change your milestones (the deadline, featureset or the costs) during your project? You need an acknowledgement of your team and after that you need an acknowledgement of the EAB to change your milestones. (Announce changes to the EAB and Team as soon as they are foreseeable.)

Costs are strictly bound to milestones. You are not allowed to pay more costs as planned for a milestone. You are not allowed to spend costs for other tasks than defined. Milestone targets must always serve the main target of the project.

You are asked to use T3A infrastructure and servers.

You are asked to use T3A infrastructure as well for code commits (Git, Gerrit, Subversion).

If your project/milestone includes code, it should be well documented. The documentation is of course updated with every milestone and therefore is a fixed features of every milestone.

Third Party Fostering

Third parties, which also funded the project have to be reported to the TYPO3 Association's Expert Advisory Board (EAB).

Forfeit of the Budget

The budget will forfeit with the lapse of the budget-period (end of the budget calendar year).
