

Error in GifBuilder for Typo3 7.x

Error: Serialization of 'Closure' is not allowed

Fixed with the following statement.

```
/**
 * Calculates the GIFBUILDER output filename/path based on a serialized, hashed value of this->setup
 * and prefixes the original filename
 * also, the filename gets an additional prefix (max 100 characters),
 * something like "GB_MD5HASH_myfilename_is_very_long_and_such.jpg"
 *
 * @param string $pre Filename prefix, eg. "GB_
 * @return string The relative filepath (relative to PATH_site)
 * @access private
 */
public function fileName($pre) {
    /** @var $basicFileFunctions \TYPO3\CMS\Core\Utility\File\BasicFileUtility */
    $basicFileFunctions = GeneralUtility::makeInstance('TYPO3\CMS\Core\Utility\File\BasicFileUtility');
    $filePrefix = implode('_', array_merge($this->combinedTextStrings, $this->combinedFileNames));
    $filePrefix = $basicFileFunctions->cleanFileName($filePrefix);

    $l_temp = serialize(implode($this->setup));

    return $this->tempPath . $pre . $filePrefix . '_' . GeneralUtility::shortMD5($l_temp) . '.' . $this->extension();
}
```
