

Topic:

I would like a clear visual a textual feedback in the confirmation modal on the consequences after clicking of the delete button.

Subject:

Every item which offers the possibility of a delete action and uses the `actions-edit-delete` button (recycler button). Database entries for relation tables (MM tables) should be not handled by the proposal.

The main focus is on:

- Database entities handled by TCA/Datahandler
- Database entries not handled by TCA/Datahandler, but uses the same layout (scheduler task)
- Files handled by FAL

Possible outcomes after confirming the deletion:

- Move item to trash
- Delete item

Definitions and requirements for the actions:

Move item to trash:

Database entries handled by TCA/Datahandler:

Requirements: The ctrl delete must be set and the associated row for the record must be 0.

Action: Update delete column and set 1

Database entries not handled by TCA/Datahandler:

Requirements: not achievable

Files handled by FAL:

Requirements: The storage must have a `_recycler_` folder. The file must not be in the recycler folder.

Action: The file is moved to the recycler folder.

Delete item:

Database entries handled by TCA/Datahandler:

Requirements: The ctrl delete must not be set or the ctrl delete must be set and the associated row for the record must be 1.

Action: Delete item from db.

Database entries not handled by TCA/Datahandler:

Requirements: -

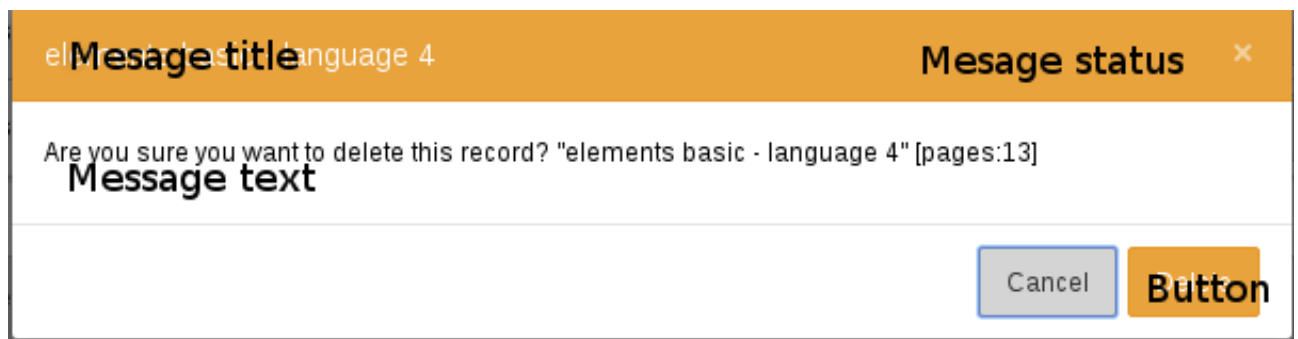

Action: Delete item from db.

Files handled by FAL:

Requirements: The storage must not have a `_recycler_` folder or the file must be in the recycler folder.

Action: Delete the file.

Visual behaviour of the actions

Move item to trash (single item):

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move <Record type(for TCA ['ctrl']['title'])>: "<record label (for TCA ['ctrl']['label'] ['ctrl']['label_alt'])>" to the recycler?

Message button: Move to recycler

Delete item (single item):

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the <Record type(for TCA ['ctrl']['title'])>: "<record label (for TCA ['ctrl']['label'] ['ctrl']['label_alt'])>" permanently? You cannot revert this action!

Message button: Delete

Move item to trash (multiple items):

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move the following items to the recycler?

- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- ...

Message button: Move to recycler

Delete items (multiple items):

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the following items permanently? You cannot revert this action!

- <Record type(for TCA ['ctrl']['title'])>: ”<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- ...

Message button: Delete

Move item to trash and delete items (multiple items):

Status: modal-severity-danger

Message title: Move to recycler / Delete

Message text: Are you sure you want to move the following items to the recycler?

- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- ...

Do you really want to delete the following items permanently? You cannot revert this action!

- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- <Record type(for TCA ['ctrl']['title'])>: “<record label (for TCA ['ctrl']['label'] ['ctrl'] ['label_alt'])>”
- ...

Message button: Move to recycler / Delete

Proposed example behavior:

Delete Content element in Page module:

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move Page content: "test" to the recycler?

Message button: Move to recycler

Delete Content element in Recycler module:

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the Page content: "test" permanently? You cannot revert this action!

Message button: Delete

Delete Backenduser in List module:

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move Backend user: "admin" to the recycler?

Message button: Move to recycler

Delete Domain in List module:

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the Domain: "example.com" permanently? You cannot revert this action!

Message button: Delete

Delete Task in Scheduler module:

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the Task: "Update extension list" permanently? You cannot revert this action!

Message button: Delete

Delete content elements in list module:

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move the following items to the recycler?

- Page content: "My Content"
- Page content: "Another Content"

Message button: Move to recycler

Delete items in Recycler module:

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the following items permanently? You cannot revert this action!

- Page content: "My content"
- Page: "My page"

Message button: Delete

Delete file on factory default:

Status: modal-severity-danger

Message title: Delete

Message text: Do you really want to delete the File: "mycontent.pdf" permanently? You cannot revert this action!

Message button: Delete

Delete file if recycler folder in storage and file not in recycler:

Status: modal-severity-warning

Message title: Move to recycler

Message text: Are you sure you want to move File: "mycontent.pdf" to the recycler?

Message button: Move to recycler

Delete items (domain and content element) from in clipboards multi selection mode:

Status: modal-severity-danger

Message title: Move to recycler / Delete

Message text: Are you sure you want to move the following items to the recycler?

- Page content: "My content"

Do you really want to delete the following items permanently? You cannot revert this action!

- Domain: "example.com"

Message button: Move to recycler / Delete
