|-------|-----------------------------|---------|----------------|-------------|--|---------------------|------------------------------|--------------------------|-----------|
| 80145 | TYPO3 Core                  | Bug     | Closed         | Must have   | Link handler to record throws exception with ck_editor                           |                     | RTE (rtehtmlarea + ckeditor) |                          |           |
| 80137 | Translation Team            | Task    | Resolved       | Should have | enable "fal_securedownload" extension in translation server                      | Xavier Perseguers   |                              |                          |           |
| 80136 | Translation Team            | Task    | Resolved       | Should have | enable "cs_seo" extension in translation server                                  | Xavier Perseguers   |                              |                          |           |
| 80135 | Translation Team            | Task    | Resolved       | Should have | enable "authenticator" extension in translation server                           | Xavier Perseguers   |                              |                          |           |
| 75128 | Front End User Registration | Bug     | Closed         | Must have   | Translations   | Stanislas Rolland   |                              |                          | No        |
| 71774 | TYPO3 Core                  | Bug     | Closed         | Must have   | Download SQL Dump fails  |                     |                              | Candidate for patchlevel |           |
| 71773 | TYPO3 Core                  | Bug     | Closed         | Must have   | FAL exception after filemetadata extension enabled                               |                     | File Abstraction Layer (FAL) |                          |           |
| 37846 | TYPO3.Flow                  | Feature | New            | Should have | Should be able to declare more than one controllerObjectName per requestPatterns |                     | Security                     |                          | No        |
| 35790 | TYPO3.Fluid                 | Feature | Resolved       | Should have | allow f:link.action to operate on parent request                                 | Karsten Dambekalns  | ViewHelpers                  | 2.0                      | No        |
| 33040 | TYPO3.Flow                  | Task    | Rejected       | Could have  | rename the default controller as DefaultController                               | Karsten Dambekalns  | MVC                          |                          | No        |
| 32930 | TYPO3.Fluid                 | Feature | Resolved       | Must have   | Create a Standalone View   | Sebastian Kurfuerst | View                         | 1.1                      | No        |
| 32869 | TYPO3.Flow                  | Bug     | New            | Must have   | Security config tokenClass doesnt throw exception if not found the class         |                     | Security                     |                          | No        |
| 32415 | TYPO3.Flow                  | Bug     | Resolved       | Must have   | Authentication + Doctrine event listeners = apache segfault                      | Karsten Dambekalns  |                              | 1.1                      | No        |
| 31683 | TYPO3.Flow                  | Bug     | Closed         | Should have | \$joinPoint->getMethodArguments() loses the reference of the argument            |                     | AOP                          |                          | No        |
| 31179 | TYPO3.Flow                  | Bug     | Resolved       | Must have   | injectSettings is called more than once for object instantiation                 | Christian Müller    | Configuration                | 1.1 RC2                  | No        |
| 30351 | TYPO3.Flow                  | Bug     | Resolved       | Must have   | Can't use AOP with Repository  | Robert Lemke        | AOP                          | 1.0.0                    |           |
| 29582 | TYPO3.Flow                  | Bug     | Closed         | Must have   | you should be able to pass any kind of objects to action methods                 | Karsten Dambekalns  | Property                     |                          | No        |
| 29465 | TYPO3.SwiftMailer           | Task    | Resolved       | Should have | Upgrade swiftmailer library to 4.1.5   | Karsten Dambekalns  |                              |                          |           |
| 29383 | TYPO3.CouchDB               | Task    | New            | Should have | Write doc/example about how to use CouchDB package as secondary datasource       |                     |                              |                          |           |
| 29382 | TYPO3.CouchDB               | Task    | New            | Should have | Write a plan to CouchDB package  |                     |                              |                          |           |
| 29381 | TYPO3.CouchDB               | Bug     | New            | Must have   | Exception with FLOW3 with default authentication                                 |                     |                              |                          |           |
| 29303 | TYPO3.Fluid                 | Bug     | Resolved       | Should have | TYPO3\Fluid\View\TemplateView getTemplateRootPath should be public               |                     | View                         |                          | No        |
| 29258 | TYPO3.Flow                  | Feature | Needs Feedback | Should have | Provide a way to override classes by environment                                 |                     |                              |                          | No        |

| #     | Project                      | Tracker | Status         | Priority    | Subject   | Assignee                     | Category      | Target version | Has patch |
|-------|------------------------------|---------|----------------|-------------|---|------------------------------|---------------|----------------|-----------|
| 29257 | TYPO3 Flow Base Distribution | Feature | Rejected       | Should have | Doctrine migrations couldn't be specified by environment                            | Karsten Dambekalns           |               |                |           |
| 28964 | TYPO3 Flow Base Distribution | Feature | New            | Could have  | Integrate Behat tool for BDD  |                              |               |                |           |
| 27379 | TYPO3.Flow                   | Bug     | Needs Feedback | Must have   | add check to clear the database at tearDown in testing                              |                              |               |                | No        |
| 27378 | TYPO3.Flow                   | Bug     | Closed         | Should have | JsonView not testable view<br>\\F3\FLOW3\Tests\FunctionalTestCase->sendWebRequest   | Robert Lemke                 | - Testing -   | 1.1 RC1        | No        |
| 27286 | TYPO3.Fluid                  | Bug     | Closed         | Should have | FLUID: #1: Warning: htmlspecialchars(): Invalid multibyte sequence in argument      |                              | ViewHelpers   |                | No        |
| 27285 | TYPO3.Flow                   | Bug     | Resolved       | Should have | Exception with /** @MappedSuperclass */   | Karsten Dambekalns           | Persistence   | 1.0.3          | No        |
| 27120 | TYPO3.Fluid                  | Feature | Rejected       | Should have | filters for ViewHelpers and templates   |                              |               |                | No        |
| 27119 | TYPO3.Fluid                  | Feature | Resolved       | Should have | Declare namespaces in XML tag   | Bastian Waidelich            | Core          | 1.1 beta 1     | No        |
| 27118 | TYPO3.Flow                   | Feature | Rejected       | Should have | Routing: json format should use MIME application/json by default                    |                              | MVC           |                | No        |
| 27117 | TYPO3.Flow                   | Feature | Resolved       | Should have | Bind routes to HTTP request methods   | Bastian Waidelich            | MVC - Routing | 2.0            | No        |
| 27116 | TYPO3.Flow                   | Feature | Closed         | Should have | Routing: Declared variables only available in POST but not in GET regexpr signature | Bastian Waidelich            | MVC - Routing |                |           |
| 27115 | TYPO3.Flow                   | Feature | Closed         | Must have   | AOP should provide a way to change method parameters                                |                              | AOP           |                |           |
| 26986 | TYPO3.Flow                   | Feature | Accepted       | Should have | Debug toolbar   | Christian Müller             |               |                | No        |
| 22274 | TYPO3 Core                   | Bug     | Closed         | Should have | sql_regcase deprecated in PHP 5.3   | Chris topher                 |               |                |           |
| 21872 | TYPO3 Core                   | Feature | Closed         | Should have | page.includeJS stdwrap  |                              |               |                |           |
| 21015 | TYPO3 Core                   | Feature | Closed         | Should have | New multimedia CE hook customMediaRender  |                              |               |                |           |
| 21014 | TYPO3 Core                   | Feature | Closed         | Should have | New multimedia CE should be accesible   |                              |               |                |           |
| 18890 | TYPO3 Core                   | Feature | Closed         | Should have | New hooks for class.t3lib_extfilefunc.php   |                              |               |                |           |
| 18849 | TYPO3 Core                   | Feature | Closed         | Should have | New Hook in function clmage function  | Benni Mack                   | Communication |                |           |
| 12141 | Advanced sitemaps            | Bug     | Needs Feedback | Should have | Add support for news2 extension   |                              | Bugs          |                |           |
| 12080 | AOE advanced realurl path    | Bug     | New            | Must have   | Compatibility with realurl 1.10 and TYPO3 4.5                                       |                              |               |                |           |
| 11287 | TYPO3 Core                   | Feature | Closed         | Should have | Fluid section for header code   |                              | Fluid         |                |           |
| 11286 | TYPO3.Fluid                  | Feature | Closed         | Could have  | Alternative syntax for fluid objects inside JavaScript                              | Bastian Waidelich            | Core          |                | No        |
| 11090 | Facebook: Social Plugins     | Bug     | Resolved       | Should have | e.root is undefined   | Refresj<br>no-lastname-given |               |                |           |
| 6009  | scriptmerger                 | Feature | Rejected       | Should have | External JS files shouldnt be merged  |                              | General       |                |           |
| 5108  | TYPO3.Fluid                  | Bug     | Resolved       | Must have   | Custom ViewHelper couldnt find validator of its own domain                          | Sebastian Kurfuerst          |               |                |           |
