Target version:		Spent time:	0.00 hour
Description			
Pls, add template support or an option to switch the ABC-menu off. Normally a menu switch an the TypoScript wraps are sufficient.			

History

#1 - 2008-08-04 19:30 - Steffen Kamper

these are not only wraps, but stdWrap.

So it's easy to hide the charmenu:

```
plugin.tx_alphasitemap_pi1.charMenu.if.equals = nodata
```

or replace with something else:

```
plugin.tx_alphasitemap_pi1.charmenu.override = <h3>Something else</h3>
```

#2 - 2009-05-12 17:49 - Thomas Scholze

- % Done changed from 0 to 100
