

TYPO3.Flow - Feature #1250

Add support for multiple route parts in one URL pattern segment

2008-08-08 12:36 - Bastian Waidelich

Status:	Resolved	Start date:	2008-08-08
Priority:	Should have	Due date:	
Assignee:	Bastian Waidelich	% Done:	100%
Category:	MVC	Estimated time:	0.00 hour
Target version:		Complexity:	
PHP Version:			
Has patch:			

Description

Currently only one route part is allowed between two slashes in a route URL pattern:

news/[id]

we need support for more than one dynamic route part in one segment to enable URL patterns like:

news/[id].[@format]

or

user/[firstName]-[lastName]

Associated revisions

Revision e7c2d156 - 2008-08-11 18:05 - Bastian Waidelich

- FLOW3: (MVC) Added "splitString"-property to F3_FLOW3_MVC_Web_Routing_DynamicRoutePart to add support for multiple route parts within one URL pattern segment. This resolves #1250.
- FLOW3: (MVC) Removed F3_FLOW3_MVC_Web_Routing_SubRoutePart as a "subroute part" is technically just some special form of a "dynamic route part".
- FLOW3: (MVC) Added another route to exemplify the usage of "splitStrings". Refactored routing classes.

Revision 1118 - 2008-08-11 18:05 - Bastian Waidelich
