

TYPO3.Flow - Task #1268

CLI options must be written as "real" options, being prefixed with a (double) dash

2008-08-12 11:24 - Karsten Dambekalns

Status:	Resolved	Start date:	2008-09-23
Priority:	Should have	Due date:

Target version:		Has patch:	
Sprint:		Complexity:	
PHP Version:			
Description			
Currently anything following the first three arguments to a CLI request is considered as options. This should be changed so that only short- or long-style options are considered, anything else should be "input", as with traditional CLI tools. Alternatively this could be anything after a double-dash, to make variable numbers of package/controller/action arguments possible (see #1267).
