

## TYPO3.Flow - Bug #13

### Implement support for lifecycle methods

2007-02-20 12:14 - Robert Lemke

<b>Status:</b> Closed	<b>Start date:</b>

<b>Category:</b> Object	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 0.1	<b>Complexity:</b>
<b>PHP Version:</b>	
<b>Has patch:</b>	
<b>Description</b> The Component Manager (more precisely the object builder) should support at least some initialization life cycle method which is executed in the target object after the setter-based dependencies have been injected. Probably other methods for session-persistent components make sense as well.	

#### Associated revisions

##### Revision 135 - 2007-02-21 10:03 - Robert Lemke

- Component Manager: Added support for a lifecycle initialization method. The name of the method can be configured in the Components.conf file (see T3P\_TestPackage\_BasicClass for an example). Fixes #13
