

TYPO3.Flow - Task #13694

Provide good naming conventions for directories in Resources/

Description			
<p>Currently we only have a limited set of naming suggestions for directories below "Resources". The current approach for Fluid templates (...../Templates/ControllerName/action.html) will clash with what we might want for TYPO3 Fluid templates (ie. page templates, templates for TypoScript objects etc.), so just using "Templates" is not good enough.</p> <p>Anyway, we need some good defaults which cover a broad range of uses for storing templates but also related media.</p>
