<b>Description</b>			
in pi/class.tx_indexedsearch.php Some HTML forms don't validate against XHTML 1.0 transitional The search form start with <table><form> and such sequences aren't possible (Solution: switch to <form><table>)  In XHTML, nowrap, selected and checked should be written nowrap="nowrap", selected="selected" and checked="checked". Note : Some old browser can have problem with this syntax.  I attach a diff if you want to patch the file. (issue imported from #M619)			

#### Associated revisions

##### Revision c3eba33c - 2010-05-27 17:44 - Xavier Perseguers

Fixed bug #14456: SQL parser doesn't accept ALTER TABLE statement without CHANGE, DROP or ADD keyword

git-svn-id: <https://svn.typo3.org/TYPO3v4/Extensions/dbal/trunk@33591> 735d13b6-9817-0410-8766-e36946ffe9aa

##### Revision 0a4cc3ff - 2010-05-27 17:45 - Xavier Perseguers

Backported changeset 33591 from trunk: Fixed bug #14456

git-svn-id: [https://svn.typo3.org/TYPO3v4/Extensions/dbal/branches/DBAL\\_1-1@33592](https://svn.typo3.org/TYPO3v4/Extensions/dbal/branches/DBAL_1-1@33592) 735d13b6-9817-0410-8766-e36946ffe9aa

Indexed\_search in CVS now works with external templates, and there's a XHTML-compliant template available. So this problem is probably solved already.

##### #3 - 2005-11-22 11:46 - Michael Stucki

Not yet. The template still needs improvements, for example the table cell contents should not be wrapped with a <p> and the result browser should be a list instead of a table.

Additionally, I would like to make the result browser JavaScript-independent.

##### #4 - 2005-11-22 11:52 - Michael Stucki

If anybody wants to come up with additional diffs, please make sure to make the changes based on the current CVS code.

##### #5 - 2006-03-09 16:10 - Robert Markula

Just to bump this bug, so the nowrap, selected and checked issues aren't forgotten for Typo3 4.0 (still not resolved for Typo3 4.0 Beta 3).

##### #6 - 2006-03-09 18:06 - Michael Stucki

All that has been fixed in CVS last week. It will be available in 4.0rc1.
