<b>Target version:</b>	
<b>Description</b>	
<p>Would like to see the list of categories displayed on the FAQ page, so that a user can click a category link and be shown all questions for that category. With the Show all link at the bottom of the list.</p> <p>If a user is viewing the questions for one category, it would be good if there were a link to take him/her back to the category list, for easy navigation.</p>
