

TYPO3 Core - Bug #15156

Setting headerOnly also removes markup of search words

Description

When setting the headerOnly parameter of the function printResultRow to one (which should be made configurable via TS if it isn't already), in line 1480 the makeDescription function is not called any more.

This results in a search result where a description without marked-up search-words is generated.

To have the search-words marked up so that you can style them e. g. red via CSS, you have to change line 1480.

Maybe I got something wrong but I think this is not the right behaviour.

change

```
$tmplContent['description'] = $this->makeDescription($row,$this->piVars['extResume'] && !$headerOnly?0:1);
```

to

```
$tmplContent['description'] = $this->makeDescription($row,$this->piVars['extResume'] && !$headerOnly?1:0);  
(issue imported from #M1733)
```

Hi,

as this issue is very old. Does the problem still exists within newer versions of TYPO3 CMS (4.5 or 6.1)?
