**Description**

Bug in t3lib\_tstemplate::addExtensionStatics():

When the template having the "rootlevel" flag is not the same as the template having the "clear constants" and "clear setup" flags, the ext\_typoscript\_setup.txt and ext\_typoscript\_constants.txt don't get included.

The condition if(...&&\$row['root']) should be changed to if(...&&\$row['clear']&1) for the ext\_typoscript\_constants.txt inclusion and if(...&&\$row['clear']&2) for the the ext\_typoscript\_setup.txt.
