That's a duplicate.

Hey

6080 is closed. I wonder why. I get suddenly Page Not Found. The site FE was working a week ago. That was the last time I logged in. It is a site in development so we hadnt logged for 6 days. BE and Install Tool working properly. FE displays Page Not Found! while url's are properly generated.

Vijay, maybe you can help us to fix this?

Typo3 4.1.1  
PHP 5.2.3  
Apache 1.3.37  
NO htaccess file applied

Thanks

Due to cooluri 1.0.9. I uninstalled the extension - have no problem.
