

TYPO3 Core - Feature #16482

Extending \$TCA[\$stable]['ctrl']['thumbnail'] to use more than one image, separated by comma

2006-08-21 13:41 - Oliver Hader

Description

Generally the thumbnail field in the TCA ctrl section is used like this:

```
$TCA["tx_myext"] = Array (
"ctrl" => Array (
...
'thumbnail' => 'image',
...
),
);
```

This diff provides a solution, to use more fields, separated by comma, e.g.

```
$TCA["tx_myext"] = Array (
"ctrl" => Array (
...
'thumbnail' => 'image,map,icon',
...
),
);
```
