Hi,
i found that line
// FIXME what is $tLines? See wizard_forms.php for the same.
at line 337 in typo3/wizard_table.php

i found it too in: typo3-src-4.0.2-rc1.tar.gz

// FIXME what is $tLines? See wizard_forms.php for the same.
if (($k+1)!=count($tLines))    {
    // it should be:
    if (($k+1)!=count($cfgArr))    {
        than the last row have an "to top" button, instead of row_down

i didnt check wizard_forms.php

(issue imported from #M4164)
In the table wizard (table ce) you have the possibility to move first line to the last line and vice versa. But on last line the false icon and input field is set. We also have a FIXME comment there.

With the patch we fix the problem and you can again move the last line on top of the lines.

Resolves: #16531
Releases: 6.2, 6.1, 6.0, 4.7, 4.5
