Description

In Module Access, set permissions:

Once the checkbox "show page" for owner is checked, it can't be unchecked again.

Can confirm this problem for 4.0.0 and 4.0.3

(issue imported from #M4687)

History

#1 - 2006-12-21 14:20 - Oliver Schröder

In Firefox 2.0 and Internet Explorer 7.0 the checkbox can't be unchecked.

In Opera 9.0 I can uncheck the checkbox with a doubleclick. But the change won't be saved (or when clicking another checkbox in the owner row, the checkbox "show page" gets checked again).

The issue is very old, does this issue exists in newer versions of TYPO3 CMS (4.5 or 6.1)?
