Description

If an extension that contains a backend menu has been installed or was removed, the module link doesn't show up in the left menu frame. It's necessary to reload manually to get the new module visible.

The extension manager could trigger an automatic reload if a module was installed or removed.

(issue imported from #M4886)

History

#1 - 2007-01-30 00:31 - Oliver Hader

Please have a look at the attached file 0004886.patch and test its functionality.

#2 - 2007-01-30 13:38 - Peter Foerger

Works fine here on TYPO3 4.1beta3*PHP5*FF*OS X 10.4.8 !

What really annoys me is the logout/login procedure to awake the modules functionality. But this is another story.

#3 - 2007-01-30 13:42 - Oliver Hader

Thanks Peter for testing the patch. I had to do some small changes to the patch. For the case, requirements of an extension didn't match the restart process lead to an endless loop.

This is fixed in 0004886_2.patch.

#4 - 2007-01-30 23:48 - Karsten Dambekalns

~12059: You can also just reload the whole BE frameset, see also comments to [#15084](#)

#5 - 2007-02-03 17:12 - Oliver Hader

Karsten, thanks for the hint! A link which offers to reload the whole backend and that appears only when an extension containing modules was installed, is simple and helpful. The attached new file (0004886_3.patch) implements this feature...

#6 - 2007-05-02 16:59 - Ingo Renner

the patch was partially used for fixing 584, so just little work is left here...

#7 - 2007-05-09 12:01 - Ingo Renner

fixed in SVN

#8 - 2007-05-19 12:48 - Michael Hirdes

reopened by request of Franz H.

#9 - 2007-05-19 13:08 - Oliver Hader

@Michael: Please tell us the reason for reopening this issue. What doesn't work and how can it be reproduced?

#10 - 2007-05-19 15:16 - Ingo Renner

fixed in SVN, if you have a problem with the solution, open a new report!

#11 - 2007-05-20 16:17 - Michael Stucki

@Oliver: If someone needs to explain that, then it's Franz H.

However, since he already opened bug [#17318](#) about exactly this topic, we can close this one once again.
