**Description**

It should be possible to create mountpoints and shortcuts by drag and dropping a page onto another. The menu already exists, with copy and move, but those options should be added.

#### History

##### #1 - 2015-07-07 15:02 - Alexander Opitz

- Description updated
- Status changed from New to Needs Feedback
- Target version deleted (0)

I think this feature request is very special and do not make many sense.  
Would it be ok for you to close this issue?

##### #2 - 2015-10-18 12:33 - Riccardo De Contardi

- Category set to Pagetree
- Status changed from Needs Feedback to New
- Target version set to 8 LTS

we're sorry for the very late answer; we'll will take a look at this in version 8 with the pagetree refactoring

##### #3 - 2017-02-23 14:50 - Riccardo De Contardi

- Target version changed from 8 LTS to 9.0

##### #4 - 2018-01-28 14:29 - Susanne Moog

- Target version deleted (9.0)

##### #5 - 2020-01-14 15:28 - Benni Mack

- Status changed from New to Closed

We have this now :)
