

TYPO3 Core - Bug #19479

Enable Caching "USER" instead of "USER_INT"

2008-10-17 15:09 - Sonja Schubert

Description			
Felogin is a extension which is used often in the right column of every page. Because the extension is not cached, this leads to performance losses, and the whole static file cache doesn't work anymore.			
There are two solutions:			
1.) TypoScript condition which checks for [usergroup = *] and sets the extension to USER_INT if there is a user logged in. (Extension has to be set to USER as default)			
2.) TYPO3 Core support for 'condition based caching' or something similar. (issue imported from #M9599)

History

#1 - 2008-10-25 21:48 - Dmitry Dulepov

The patch is attached

#2 - 2008-10-26 14:46 - Steffen Kamper

thx Sonja for reporting and Dmitry for the patch, i tested and it works. Is in core list now.

#3 - 2008-10-27 17:01 - Oliver Hader

USER objects do not support the "includeLibs" property.
Test the new patch which solves this...

#4 - 2008-10-27 19:50 - Oliver Hader

The first patch needs the feature [#9654](#) applied to work correctly.

#5 - 2008-11-04 10:10 - Steffen Kamper

added last version of the patch, that needs [#9654](#) which is already committed

#6 - 2008-11-04 10:41 - Oliver Hader

Committed to SVN Trunk (rev. 4414) - TYPO3 4.3-alpha1

#7 - 2009-09-22 17:07 - Oliver Hader

This issue has been reverted in SVN Trunk again (rev. 6031)

#8 - 2018-10-02 12:29 - Benni Mack

- Status changed from Resolved to Closed
