Description

With current TYPO3 trunk I get a lot of PHP warnings like this one using PHP 5.3 alpha 3:

"Deprecated: Function ereg_replace() is deprecated in ...

History

#1 - 2008-12-21 22:37 - Niels Pardon
Solution: use preg_replace().

#2 - 2009-05-11 15:13 - Dmitry Dulepov
There are three patches here. Which one should be used?

#3 - 2009-05-11 21:22 - Karsten Dambekalns
The latest one, 9994.KD.v2.patch. We talked about this one just today in Hamburg, would be cool to have this checked and committed finally! :)

Please test latest patch against trunk - thanks!

v4: One more thing - fixed wrong line in nusoap library for EM, that was already noted in mailing list earlier... remaining patch unchanged.

Still has ereg_replace in:
tests/regularexpression_testcase.php
typo3/class.db_list_extra.inc
typo3/cli_dispatch.phpsh
typo3/sysext/cms/tslib/media/scripts/fe_adminLib.inc
typo3/sysext/cms/tslib/media/scripts/wapversionLib.inc

Still has eregi_replace in:
typo3/sysext/cms/tslib/media/scripts/plaintextLib.inc
Still has ereg in:
t3lib/class.t3lib_sqllparser.php
typo3/class.db_list.inc
typo3/sysext/adodb/adodb/drivers/adodb-sybase.inc.php

Well, the testcase obviously needs them for testing purposes. ;)
I fixed the others but ignored adodb for now (sybase is probably not usable anyway...)
New v5 patch attached.

Fixed in SVN

Due to many misbehaviours of the ereg/preg stuff, this fix needs again a full and detailed review.

Seems to be working now...
