Description

Using Typoscript we try to provide a source parameter to a flash as TYPO3 content element MULTIMEDIA doesn't like GET parameter in the file resource.

As the MULTIMEDIA content element splits at '=' and takes only element {0,1} we loose everything after the second '='.

Exp. we have:

```
params(  
src=someflash.swf?para1=test1&para2=test2  
)
```

we get

```
<embed .... src="someflash.swf?para1" />
```

(issue imported from #M10588)

- Status changed from New to Needs Feedback
- Target version deleted (0)
- TYPO3 Version set to 3.8
- Is Regression set to No

Hi,

as this issue is very old. Does the problem still exist within newer versions of TYPO3 CMS (4.5 or 6.1)?
