

TYPO3 Core - Bug #20784

Faulty usage of t3lib_matchCondition in backend template

2009-07-27 14:30 - Oliver Hader

Description

The backend base template (typo3/template.php) creates an instance of t3lib_matchCondition to determine browser information. However, it's not required to load the full t3lib_matchCondition class - besides that it's intended for TypoScript conditions in the frontend.

This is a classical misuse...

(issue imported from #M11585)
