Description

Problem:

When having a TYPO3 installation with uids > 100000, those records can't be moved in a workspace because the t3ver_label will be populated with the string "MOVE-TO PLACEHOLDER for #197320", that is longer than 30 characters which is the size of this field

Solution:

Increase the field size from varchar(30) to varchar(255)

(issue imported from #M11593)
