#### History

##### #1 - 2009-08-20 00:12 - Christian Kuhn

Not confirmed, this works for me (trunk + FF3)

Does this happen with a clean trunk installation?

Which browser are you using?

Do you see any js errors?

Could you please provide a more detailed description on how to reproduce?

CK: Does this happen with a clean trunk installation?

Yes

CK: Which browser are you using?

FF3.5 on Vista

If you generate a new page with the + Button on top of the pagetree, and just give the new page a name and save. No refresh in the pagetree is pushed.
