<b>Description</b>	
The TCA type suggest has been activated for some core tables and it works fine everywhere else but not in this case: <ul style="list-style-type: none"><li>• create a new sys_action record (sysexst sys_action has to be installed first)</li><li>• select the type "Edit records"</li><li>• Scroll to the field "Records to edit:" and try to find any record.</li><li>• Nothing can be found.</li></ul> strange is: Switch to any other type of the same record and the suggest is showing results! can anyone reproduce this? (issue imported from #M12636)

##### Revision c0232564 - 2013-05-04 10:46 - Nicole Cordes

[BUGFIX] Resolve asterisk in allowed tables for suggest wizard

In the suggest ajax script the setting of allowed tables is not parsed for the asterisk (\*). If it is set all TCA tables should be parsed and checked for access and added to queryTables array.

## **History**

---

### **#1 - 2013-04-21 01:53 - Nicole Cordes**

- Status changed from New to Accepted
- Target version deleted (0)
- TYPO3 Version changed from 4.3 to 6.1
- PHP Version deleted (5.2)

This is due to field configuration. allowed tables are defined as "\*" which isn't resolved in proper tables.

**#19 - 2013-05-24 13:58 - Ernesto Baschny**

The fix was committed but reverted again (after 20 mins) in master for no known reason:

<https://git.typo3.org/TYPO3v4/Core.git/commit/b0c3a60>

But then the fix was still applied to previous branches (backported by Nicole). Maybe there is still an issue?

**#20 - 2013-05-24 14:40 - Nicole Cordes**

Not an issue anymore. Merged with later fixes :-)
