#### Description

Hey Guys,

i found a small bug in Frontend Edit. If I set an umlaut like 'ä' the Editor renders after saving a '?'.

The Database has also the saved value '?' for 'ä'

Firefox 3.5.5 and Safari 4.0.4  
(issue imported from #M12656)

Thats right! Please add a notice if you need a screenshot.

PS: I test it on Windows XP with the newest xampp in default mode. No configuration change
