#### Description

The 1-2-3 Install Tool has a big overhaul for 4.4 but some of the texts could still use a little work to make the steps more clear for a new user. Bill Tenny-Brittian (documentation writer for WEC) and I went through to clean up and clarify things.

#### History

##### #1 - 2010-06-22 15:45 - Jeff Segars

Committed the install portion to trunk in r8034 and the dbal portion directly to trunk in r8036.

I've emailed Xavier with the patch file so that this can be added into dbal properly when he returns.
