Description			
How to reproduce:			
<ul style="list-style-type: none">• Open a blank RTE (without any content) with a current Safari Browser• Press Shift+Enter to create a line break => works• Type some text and press enter to create a new paragraph• Now try Shift+Enter again => produces a new paragraph!			
As far as I can tell other browsers (even not Chrome) are not affected

This is strange. In what version of TYPO3 and of Safari did you encounter this issue?

This could be related to #0013674. Maybe I thought that the behaviour was modified in all WebKit browsers by testing in Chrome, or maybe it is a regression of Safari5?

The attached patches fix the issue in trunk, branch 4.4 and branch 4.3

#2 - 2010-06-26 20:24 - Stanislas Rolland

Uploaded new version of the patches to handle special case where space characters would have been entered in text mode.

#3 - 2010-06-27 10:27 - Sebastian Michaelsen

Encountered it with TYPO3 4.4.0 and Safari 5 on Mac.
Can reproduce it with Safari 5 on Windows.

Maybe this helps you to find the bug: <http://screenr.com/Wnm>

#4 - 2010-06-27 10:31 - Sebastian Michaelsen

Sorry your patch does not solve this problem for me.

#5 - 2010-06-27 16:20 - Stanislas Rolland

Did you clear the RTE cache after applying the patch (using the Clear RTE cache option of the Clear cache menu in the BE)?

#6 - 2010-06-28 07:41 - Stanislas Rolland

I retested again this patch with TYPO3 4.4.0 and trunk and Safari 5 on Windows. I insist that it does work.

Please make sure that you apply version v2 of the patch and that the RTE cache is cleared after applying the patch.

#7 - 2010-06-28 08:54 - Sebastian Michaelsen

Tested again with clearing the RTE Cache explicitly. Now it works! Thanks for taking care. Issue can be closed

#8 - 2010-06-28 21:14 - Stanislas Rolland

Uploaded improved version v3 of patch for trunk and TYPO3 4.4. The issue does not arise in 4.3.

#9 - 2010-06-28 21:27 - Stanislas Rolland

committed to SVN TYUPO3core trunk (revision 8071) and branch TYPO3_4-4 (revision 8072).

#10 - 2018-10-02 12:23 - Benni Mack
