For select fields with maxitems = 1, the suggest wizard does display, but you cannot select an item and transfer it to the selected list. Once you change it to maxitems > 1 everything works ok.

I'm willing to sponsor the solution of this bug.

Revision 7733a44 - 2013-05-05 14:08 - Stanislas Rolland
[BUGFIX] TCA:Suggest wizard doesn't work for select with maxitems=1

For select fields with maxitems = 1, the suggest wizard does display, but you cannot select an item and transfer it to the selected list. Once you change it to maxitems > 1 everything works as expected.

Solution: Avoid maxitems = 1 (unique) select fields being rendered as multiple selector boxes and add JS that is required whenever a suggest wizard is rendered.

Fixes: #23789
- Releases: 4.5, 4.7, 6.0, 6.1, 6.2

- Target version deleted (0)

Confirmed it doesn't work with 4.5.4 too.

## #7 - 2011-09-13 22:05 - Tolleiv Nietsch

Just added this here because Gerrit removed all newlines from my comment:
current (unpatched) status:

- maxitems > 1, size > 1 -- works
- maxitems = 1, size > 1 -- doesn't work, but doesn't make sense either
- maxitems = 1, size = 1 -- works
- maxitems > 1, size = 1 -- works equal to maxitems=1, size=1

but ... if the "autoSizeMax" setting is used, the "size = 1" cases break, because the select drop down turns into the "size > 1" multi field...

I'd suggest to fix this differently (see patchset 6) - I'd prefer to avoid the useless maxitems=1, size>1 situations here - this would implicitly also fix the suggest wizard problems. Seems much cleaner.

If I didn't catch every crash case, please add further details on how to reproduce them within the Introduction Package. Thx
