Description

As part of T3UXW09, a live search module was added to the backend toolbar. This needs a little further refinement, testing, and UI work to be included in TYPO3 4.5.

patching latest trunk, i get this error

Fatal error: Call to a member function convArray() on a non-object in /Users/krur/Sites/TYPO3_repository/trunk/typo3/backend.php on line 515

if i comment line 515 of backend.php, it seems to work!
(obviously i guess i'll lose some strings :)

Thanks for testing! It seems that I had a typo on this line and I'm not sure how it every worked for me :) It should be the following....

$GLOBALS['LANG']->csConvObj->convArray($t3LLliveSearch, $GLOBALS['LANG']->charSet, 'utf-8');

Does this work for you?

Attached v3 with the following changes

- Fixes a typo in backend.php when converting character sets
- Checks for invalid commands (ie. #pages instead of #page)
- Only jumps directly to list view search results on ENTER keypress and not other special keys
- Only follows page jumps (ie. #14143) when ENTER is pressed and shows live search results if ENTER is not pressed

Jeff... where is patch v3?

#5 - 2010-11-17 19:07 - Jeff Segars

Right here.....now that I added it ;) Thanks for the nudge

#6 - 2010-11-17 19:12 - Stefano Cecere

perfect... with v3 no more fatal errors, and it seems to work well! (safari & firefox)

thanks!s

#7 - 2010-11-18 00:07 - Steffen Kamper

committed v3 to trunk rev 9478
