#### Description

Problem:

The formprotection factory class is currently named "t3lib\_formprotection\_Factory". This class however will do a bit more as a factory after [#24805](#) is committed.

Additionally t3lib\_formprotection::get() looks much more readyble to me than t3lib\_formprotection\_Factory::get()

Solution:

Change the name

(issue imported from #M17309)

#### History

#1 - 2011-01-25 19:08 - Helmut Hummel

OK, dropped this one after discussin gwith Ernesto
