Description

Hi everyone,

The following error occurs when trying to Retrieve / Update extensions list from the Extension Manager :

```
PHP Fatal error: Class 'tx_em_XmlException' not found in
/var/www/COMMON/typo3_src-4.5.1/typo3/sysext/em/classes/exception/class.tx_em_mirrorxml_exception.php on line 42
```

I just updated from 4.5.0 this morning, by changing the symlink to the source
(issue imported from #M17735)
