<b>Description</b>			
When filtering in pagetree no results are found in Internet Explorer. The output is just as if no matching page was found (e.g. searching for a non-existent pagetitle). Trying the same with Firefox works. Tested with Internet Explorer 7 and 8 in TYPO3 4.5.2.  (issue imported from #M17952)

[BUGFIX] Page tree filtering broken in IE7 & IE8

The page tree doesn't show the result when using the filter in the page tree in IE7 & IE8. ExtJS somehow breaks silently when trying to use a non-tag (text) as a drag handle. This fix works with the original change that introduced this, meaning it doesn't break the functionality of dragging of locked records.
