- Target version set to Learning phase

#2 - 2011-05-20 16:16 - Ryan Graham

- Status changed from New to Accepted

I've gotten version 4.6 and am on the master branch. Using "git branch -av" I see there's a branch for previous versions and a few other branches. Will I be working on my own branch? Is there reason there aren't very many other branches because git was recently introduced to the developers?

#3 - 2011-05-21 17:53 - Oliver Hader

- Status changed from Accepted to Resolved

- % Done changed from 0 to 100

The repository has been created at:
