

Conference Management - Task #27746

Story # 26935 (New): As a speaker I can delete paper drafts I'm involved in

Add "delete Paper" link to paper edit view

Description			
In the paper editing view (Resources/Private/Partials/Paper/EditForm.html) there is already (commented) markup that displays a "delete this paper" link, if the paper is of status DRAFT . The according delete action also exists in the PaperController. Unfortunately <pre>\$this->paperRepository->remove(\$paper);</pre> does not work due to constraint violations.. Note: I just tried that again with the latest changes, but it still does not work. I don't really know how to handle this yet..

[Karsten Hachmeister](#) could you have a quick look at this? If it is too complicated, we can probably skip this "feature" and live with the "dead drafts" for now.
