<b>Description</b>			
There is a JS-Error coming from that scenario:  - be_user has no access to module "Workspaces" - then the link to the Workspace-module is not rendered into DOM - then in the file typo3/sysex/workspaces/Resources/Public/JavaScript/workspacemenu.js, there is this line:  Event.observe('goToWsModule', 'click', this.goToWorkspaceModule.bind(this));  - this produces the js-error: "_prototypeEventID not defined"  Solution (patch):  if(Ext.getBody().is('#goToWsModule')){ Event.observe('goToWsModule', 'click', this.goToWorkspaceModule.bind(this)); }

### History

#### #1 - 2011-07-19 14:17 - Stefan Neufeind

Already fixed for 4.6 with [#13585](#). Will see to get that backported to the 4.5-branch.

#### #2 - 2011-07-19 16:18 - Tolleiv Nietsch

- Status changed from New to Closed
- Parent task set to #25767

Duplicate of [#25767](#) - thanks for confirming ;)

#### #3 - 2013-12-10 01:03 - Michael Stucki

- Category set to Workspaces
