[FEATURE] Exit code support for command-line responses

This adds a new property "exit code" to the command-line response. Controllers may set this exit code to an integer value to signal any errors to the calling user or application. The default exit code is "0".

This change set also uses the new feature in FLOW3's built-in commands.

Change-Id: I2ba019e0386775bd1794e6495142fe6788ed7b2e
Resolves: #28652
