#### Description

Right now, it is not possible to write something like this:

```
[PIDinRootline = LIT:{$tsconstant}]
# ...
[end]
```

Changing the check to:

```
case 'PIDinRootline':
$value = $this->getVariable(trim($value));
$values = t3lib_div::trimExplode(',', $value, TRUE);
if (($key == 'PIDinRootline') || (!in_array($this->pageId, $values))) {
    foreach ($values as $test) {
        foreach ($this->rootline as $rl_dat) {
            if ($rl_dat['uid'] == $test) {
                return TRUE;
            }
        }
    }
}
```

would solve that problem in t3lib/matchcondition/class.t3lib\_matchcondition\_frontend.php just for this case. of course this could be changed in other conditions as well.

#### History

##### #1 - 2011-08-22 18:20 - Chris topher

- Subject changed from conditions with constants to Enable constants in conditions in TypoScript templates
- Target version set to 4.7.0

##### #2 - 2011-08-23 08:58 - Steffen Gebert

Simon, couldn't we call getVariable() before the case? Would this not work? If it should, please provide a patch after branching 4.6 (either after an RC or after final release)

##### #3 - 2011-08-23 09:31 - Simon Schaufelberger

I am sure this would also work but i have not tested it. It was just to show the basic idea how this problem could be solved.
