#### Description

TYPO3\FLOW3\Persistence\Doctrine\Query->setOrdering does not work on related fields:

Currently:

```
public function setOrderings(array $orderings) {
    $this->orderings = $orderings;
    $this->queryBuilder->resetDQLPart('orderBy');
    foreach ($this->orderings AS $propertyName => $order) {
        $this->queryBuilder->addOrderBy($this->queryBuilder->getRootAlias() . '.' . $propertyName, $order);
    }
    return $this;
}
```

Better:

```
public function setOrderings(array $orderings) {
    $this->orderings = $orderings;
    $this->queryBuilder->resetDQLPart('orderBy');
    foreach ($this->orderings AS $propertyName => $order) {
        $this->queryBuilder->addOrderBy($this->getPropertyNameWithAlias($propertyName), $order);
    }
    return $this;
}
```

#### History

##### #1 - 2011-08-26 12:47 - Ferdinand Kuhl

This is a duplicate of:

<http://forge.typo3.org/issues/26885>

##### #3 - 2011-12-27 15:17 - Johannes K

And can get closed now, [#26885](#) is resolved

##### #4 - 2012-03-14 15:07 - Christian Müller

- Status changed from New to Closed

- Has patch set to No
