Description

While checking the use of hash_base in class.tslibfe.php, I found the \$this->hash_base is only used in to set \$this->config['hash_base'] in generatePage_preProcessing (with a comment that it is used for caching informational purposes). But a grep revealed no further usage of either var's. So maybe that could get deprecated and removed in the future.

```
[9:14] webmaster@wwwtest % pwd
/home/webmaster/frm2/typo3_src_git
[9:14] webmaster@wwwtest % find . -name \*.php -print0 | xargs -0 grep hash_base
./typo3/sysex/cms/tslib/class.tslib_fe.php:     var $hash_base='';           // Loaded with the serial
lized array that is used for generating a hashstring for the cache
./typo3/sysex/cms/tslib/class.tslib_fe.php:     * @return string           MD5 hash of $this->hash_base which
is a serialized version of there variables.
./typo3/sysex/cms/tslib/class.tslib_fe.php:         $this->hash_base = serialize(
./typo3/sysex/cms/tslib/class.tslib_fe.php:         return md5($this->hash_base);
./typo3/sysex/cms/tslib/class.tslib_fe.php:         $this->config['hash_base'] = $this->hash_base; // For c
ache management informational purposes.
```
