Has patch:	No			

Description

Hi,
the __toString method mentioned here:

```
http://flow3.typo3.org/fileadmin/manual/nightly/TheDefinitiveGuide/PartIII/ResourceManagement.html
```

is currently not present.

Would be great if someone could add this:

```
public function __toString() {
    return (string)$this->getResourcePointer();
}
```

So the described functionality

```
file_get_contents('resource://' . $resource);
```

will work.

Revision 8cdaae41 - 2012-05-08 18:16 - Karsten Dambekalns

[FEATURE] Add __toString() and make Resource use more convenient

To use a Resource with file operations, one can use the
resource:// scheme and the __toString() method of any
ResourcePointer.

To make this a little easier, this change adds two new
methods to the Resource class:

__toString() returns the SHA1 of the ResourcePointer the
Resource is holding (as is documented for ages).

getUri() returns a ready-to-use resource://<sha1> URI of
the ResourcePointer the Resource is holding.
