Target version:	0.1	Complexity:	
PHP Version:			
Has patch:			
Description			
Theoretically a pointcut can refer to itself in a pointcut declaration or circular reference might appear on a deeper level. On a matches() call this would lead to an infinite loop and therefore must be detected.			

Associated revisions

Revision 147 - 2007-02-25 20:38 - Robert Lemke

- Core: Added support (and test) for detecting circular pointcut references. Fixes #30
