Description

Unfortunately the CardLayout feature is not feature complete and above all stable enough to stay in Core with the upcoming release candidate next week.

CardLayout is really a good feature that should be fixed and integrated as soon as possible in TYPO3 4.7, in November 2011.

[Kay Wienöbst](#), please base your work to make it a feature again for 4.7 by simply taking the patch you get when "reverting" this change.

And once again, I'm sad but I had to take this (wise) decision for the sake of stability.

@Xavier: what were the reasons why this was shifted to 4.7?

#6 - 2011-10-10 08:02 - Xavier Perseguers

They are given in the description and in the list of related open issues.
