

TYPO3.Flow - Task #309

Move Classes/Components.conf to Configuration/

2008-02-14 16:05 - Robert Lemke

Status:	Resolved	Start date:	2008-02-14
Priority:	Should have	Due date:	
Assignee:	Robert Lemke	% Done:	100%
Category:	Object	Estimated time:	0.00 hour
Target version:		Has patch:	
Sprint:		Complexity:	
PHP Version:			
Description			
The Components.conf file should be renamed to Components.ini and moved to a package specific Configuration directory.			

Associated revisions

Revision c592266a - 2008-02-14 16:32 - Robert Lemke

- FLOW3: (Package) Moved the Components.conf file from the Classes/ directory of each package to a new Configuration/ directory and renamed the file to Components.ini. Closes #309.
- FLOW3: Updated the documentation accordingly.

Revision 491 - 2008-02-14 16:32 - Robert Lemke

- FLOW3: (Package) Moved the Components.conf file from the Classes/ directory of each package to a new Configuration/ directory and renamed the file to Components.ini. Closes #309.
- FLOW3: Updated the documentation accordingly.

Revision e597a443 - 2008-02-14 17:09 - Robert Lemke

- FLOW3: (Package) Also renamed the "ComponentsConfiguration.php" to "Components.php" and moved it to the Configuration directory. Relates to #309.
- FLOW3: (Package) Moved the "PackageConfiguration.php" to the package's Configuration directory and renamed it to "Package.php". Resolves #311.
- FLOW3: Updated the documentation accordingly.
- phpCR: Moved and fixed the PackageConfiguration.php.
- PHPUnit: Moved and fixed the PackageConfiguration.php.

Please note that all PHP code inside a Configuration/Package.php file is in the scope of the Package class. You therefore have access to methods like getClassesPath() etc. and should use them. The TYPO3_PATH* constants will disappear over time ...
