

Accessibility Glossary - Bug #31006

Link is not shown in overview of all glossary elements

2011-10-17 14:05 - Oliver Hader

Status:	Closed	Start date:	2011-10-17
Priority:	Should have	Due date:	
Assignee:	Ronny Vorpahl	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
If a link was added to one of the glossary elements, it is not shown in the full overview of all elements (the output of the plugin).			
Reason: TypoScript block for tx_a21glossary_main does not consider links at all (see static TypoScript files)			

History

#1 - 2011-10-28 18:15 - Oliver Hader

Hm, the label is wrong - the "link" field is used as alternative to linking to the detailed glossary element.

#2 - 2011-11-01 18:30 - Ronny Vorpahl

- Status changed from New to Closed

- Assignee set to Ronny Vorpahl

Revision 53607: Changed Label "Link" to "External Link (Override, instead of glossary page)"
