

TYPO3.Fluid - Bug #31451

Fluid XSD Generator uses removed method

2011-10-31 11:40 - Julian Wachholz

Status: Closed	Start date: 2011-10-31
Priority: Should have	Due date:
Assignee: Bastian Waidelich	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Has patch: No	
Description	
When trying to generate an XSD to use with my Editor the following Exception gets thrown:	
<pre>Fatal error: Call to undefined method TYPO3\FLOW3\Object\ObjectManager::getRegisteredObjects() in TYPO3\Fluid\Service\AbstractGenerator.php:70</pre>	
This method has either been removed or renamed, but unfortunately couldn't find out where it went.	
(This could also be seen as task to update the Fluid controllers to the new Syntax, e.g. use @FLOW3\Inject instead of injectFoo methods)
