cHash generation does not respect linkVars

After #28352 which intended to only generate a cHash when needed, the code was changed to skip linkVars for the generation of the cHash.

This results in a wrong calculation of the cHash when linkVars are in use.

[BUGFIX] Respect linkVars for generating the cHash

When implementing #28352 the linkVars have been skipped from the calculation of the cHash, resulting in wrongly calculated cHash parameters when linkVars are in place.

Add the linkVars again for creating the cHash
