Description

It would be nice to have a configuration field `hidden_notification` / BCC for every stage, where it is possible to add several email addresses.

On every stage change these fields are checked and the containing email addresses will also get a notification email. The `be_user` won't notice this, as this is not shown anywhere in backend.

I attached the modified t3x of the workspaces extension with a tested solution. I know that it is not nice to just attach the t3x and do not create patches. I am very sorry but I have no time this week to create these patches, but I will do this later.

Nevertheless some feedback if you like this feature in general would be nice.

Greets,

Sonja

Tried creating a diff against current head but that contains too many other changes from your private tree. So it would be great if you could submit a patch/something for review.

It might make sense to have some kind of BCC-functionality which BE-users don't see (and can't selectively remove) I guess. Maybe for documentation-purpose, inspection or whatever.

#2 - 2012-01-27 21:26 - Tolleiv Nietsch

- Status changed from New to Accepted

#3 - 2013-12-10 01:04 - Michael Stucki

- Category changed from New Features to Workspaces

#4 - 2013-12-10 01:06 - Michael Stucki

- Project changed from 624 to TYPO3 Core

- Category changed from Workspaces to Workspaces

#5 - 2015-01-23 11:33 - Mathias Schreiber

- Target version set to 7.5

#6 - 2015-09-24 12:09 - Benni Mack

- Target version changed from 7.5 to 7 LTS

#7 - 2015-10-06 22:41 - Benni Mack

- Target version deleted (7 LTS)
