Description Hi everybody, I just did a search for photos related to TYPO3 and stumbled upon the fact, that we are providing fonts, logos asf but there is no collection of photos regarding TYPO3. There are some nice pics of the conferences, but all with a unclear licence situation. Wouldn't it be a good idea to provide pictures related to TYPO3 under a CC lincence?

Hi Christian,
thats actually a great idea.
To be perfectly honest I think the marketing team may be of better help in this case.
Design Team -> No Photographers, No License Dudes ;)
I'll talk to Ben about it
Thanks

There is an official 'typo3.press' account on flickr with official pics.
